Non-GAAP Financial Measures

We use certain non-GAAP financial measures as additional measures to enhance the understanding of our financial results. This presentation includes the following non-GAAP financial measures: adjusted net revenues, adjusted variable expenses, adjusted fixed expenses, and adjusted income before income taxes. We believe that these non-GAAP financial measures are important measures of our financial performance because they exclude certain items that may not be indicative of our core operating results and business outlook and may be useful to investors and analysts in evaluating the operating performance of the business and facilitating a meaningful comparison of our results in the current period to those in prior and future periods. These non-GAAP measures should be considered in addition to, rather than as a substitute for, measures of financial performance prepared in accordance with accounting principles generally accepted in the United States (“GAAP”). A reconciliation of these non-GAAP measures to the most comparable financial measure presented in accordance with GAAP is included at the end of this presentation.

Cautionary Note Regarding Forward-Looking Statements

The following information contains certain forward-looking statements that reflect the Company’s current views with respect to certain current and future events and financial performance. These forward-looking statements are and will be, as the case may be, subject to many risks, uncertainties and factors relating to the Company’s operations and business environment which may cause the Company’s actual results to be materially different from any future results, expressed or implied, in these forward-looking statements. Any forward-looking statements are based upon information available to the Company on the date of this presentation. The Company does not undertake to publicly update or revise its forward-looking statements even if experience or future changes make it clear that any statements expressed or implied therein will not be realized. Additional information on risk factors that could potentially affect the Company’s financial results may be found in the Company’s filings with the Securities and Exchange Commission.

Sustainable Investing

Interactive Brokers has a suite of environmental, social and governance (ESG) tools to develop a conscientious investing plan. Clients can align their investments with what they care about most.¹

ESG Scores

Invest Responsibly. ESG scores are available on all of our platforms. Alerts are sent when ESG news may affect the scores of the companies followed by investors.

Impact Dashboard

The Impact Dashboard ensures that a client's investments is aligned with their **values**.

IMPACT App

This standalone app adds **flexibility, portability and a simplified trading interface**. When ESG scores change, it allows instant swapping of stocks to keep the investor's values and investments aligned. U.S. users can add cryptocurrencies for new degrees of diversification.²

1. For additional information, see ibkr.com/esg-tools
2. The projections or other information generated by IMPACT app regarding the likelihood of various investment outcomes are hypothetical in nature, do not reflect actual investment results and are not guarantees of future results. Please note that results may vary with use of the tool over time.

Earn Interest on Uninvested Cash Balances

- Client accounts are eligible to receive **credit interest on long settled cash balances** in their securities accounts. ¹
- Accounts with a Net Asset Value (NAV) of \$100,000 (or equivalent) or more are paid interest at the **full rate** for which they are eligible. Credit Balances greater than \$10,000 (or equivalent) in accounts with a NAV less than \$100,000 (or equivalent) will be paid interest at a **proportional rate**.
- The U.S. credit interest rate is up to **1.83% for IBKR Pro** and **0.83% for IBKR Lite**. ²

1. Restrictions apply. For additional information, see ibkr.com/interestrates
2. Credit Interest rate as of 7/29/2022

Recent Enhancements and New Products

IMPACT Mobile App – a simplified trading platform that allows users to seamlessly align their investments with their values. Investors can select personally relevant investment criteria from 13 impact values, flag investments based on 10 categories, and can score a portfolio based on how well it aligns with their personal value preferences. Donations to nonprofits, position swaps in the same dollar amount from one company to another, and purchasing carbon offsets can all be done directly from the app.¹ This app won an award from the Business Insider as the best for ESG Investing.

Traders' Insight Radio – a new podcast series featuring interviews with executives, thought leaders and market experts from across the financial services industry discussing topical themes impacting global markets and trading.²

Fractional Shares Trading, now for European stocks and ETFs – allows investors the opportunity to trade across markets in a more affordable way. With fractional shares, there is no minimum for buying European or US shares and investors can invest with as little as \$1, irrespective of the stock price. Fractional shares trading is available on all Interactive Brokers platforms.³
